In compiling this edition of *Shelter Projects*, we have drawn on a variety of sources. Some of the published sources are listed on the next page under General statistics and Websites, whilst others were project documents.

Also included are a list of key shelter texts, which readers can refer to for many of the shelter-related issues raised by these case studies. Some of them are directly cited in the text. Visit [www.shelterprojects.org](http://www.shelterprojects.org) for a full list of resources for download.

Below we highlight some of the most relevant publications released in the past two years.

### FEATURED PUBLICATIONS

**The Sphere Handbook, Humanitarian Charter and Minimum Standards in Humanitarian Response, 2018:** The oldest initiative in the field of humanitarian standards, it has been field-tested over twenty years and regularly updated to ensure it remains fit for purpose in a changing world. It contains consensus standards agreed among major humanitarian organizations for key sectors, including shelter and settlement. It also contains actions, indicators and guidance notes as to whether standards have been achieved. The 2018 edition of the shelter and settlement chapter includes standards on security of tenure and technical assistance, had a revised structure and definitions of settlement scenarios and assistance options. What does not change is its rights-based foundation: people have the right to assistance, the right to life with dignity, the right to protection and security, and the right to fully participate in decisions related to their own recovery. <https://spherestandards.org/handbook/editions/>

**Global Shelter Cluster, The State of Humanitarian Shelter and Settlements 2018:** This report aims to raise the profile and understanding of the shelter and settlements sector with a broad community, including policy makers, donors, governments, academics and senior managers in humanitarian agencies. It includes articles on a variety of topics and a section on data analysis. <https://bit.ly/2QJLxql>

**CCCM Cluster, Case studies Vol.2, 2016:** In this second edition, case studies include reflections on addressing gender-based violence in complex environments; the value of strong inter-cluster coordination to ensure a rapid and effective response to humanitarian needs; and the importance of building the CCCM capacity of local authorities and partners to respond to displacement. <https://bit.ly/2HSGC6x>

**Global Shelter Cluster, Settlement Approaches in Urban Areas.
